Work Experience

Gravit Infosystems - Junior Developer

May 2023 - October 2023

Gwalior

- Interned at Gravit Infosystems for 5 months, contributing to web development projects as React Developer.
- Gained experience in agile development methodologies, participating in daily stand-ups and sprint planning sessions.
- Developed customer-specific design framework, reducing site production time.
- Documented project progress, code, and system architecture to ensure smooth knowledge transfer and onboarding of new team members.
- Utilized version control tools like Git to maintain and manage code repositories in a team environment.

Suvidha Foundation(NGO) - Web Developer Intern

December 2022 - February 2023

Remote

- Engaged in web creative design and development.
- Assisted in site development and enhancements of current site to boost engagements.
- Created a mock reimagined version of the site to bring a fresh perspective.
- Followed the design and development, providing with solutions where necessary
- Acquired a Letter of Recommendation(LOR) for my work

Projects

Have_a_chat - Creator

- Used Whisper api and chat GPT to create a question answer format app that lets you converse with video lectures from youtube.
- Developed front-end user experience using React.JS, Tailwind and RESTful APIs.
- Created back-end using MongoDB, vector database Pinecone and langchain for embeddings

Code_karo_yaaro - Creator

- Designed a reimagined educational platform for young coding enthusiasts.
- Designed a fun and interactive layout that holds attention and increases clickthrough rate.
